Saverleign Denizen

Sovereign Denizen

release date: June 2007 and August 2012 (deluxe remastering)

producer: Link e. Starbureiy

cast: Rich Angel, Link Starbureiy, Harold Shinsato

location: Missoula, Montana (598xx)

genre: documentary film

running time: 1:59:08

plot: an intimate portrait detailing the thoughts, handles, and travels of Rich Angel before he embarks on freestatesmanhood.

availability: public domain (+ closed captioning)

Synopsis

Rich Angel is unique among many, in that he has discovered what he believes is the true nature of contemporary society - fraud, and that the

only way to beat the system is to systematically avoid it. Some of his common practices - including the use of questionable alternative

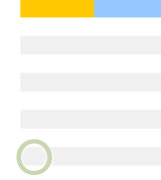

currencies, permit structures, husbandry, and so forth - have given him a chance to test his theories in the real world. It's an

everyday battle with both himself and his controlling government for the ultimate power - sovereignty.

Originally filmed in portions of 2006 and 2007 throughout Missoula, Montana, Link Starbuck was able to capture actual, first-hand accounts of

the fascinating figure that is the so-called Freestatesman. The footage is real and unscripted. The story is ongoing. And the subject has

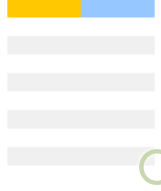

something to teach all of us.

in the quiet town of Missoula, Montana there are competing lifestyles of liberalism. perhaps none of those quite match that of the individual who seeks to compromise their own security for the sake of independence.

as a citizenry, we have been taught from an early age that the all-American way of life should be steady and predictable. we are made to believe that our Government always has our best interests at heart, and that We The People are ultimately in control of our own destinies. but believing in such an ideology requires that we not question our leaders or their motives. for the system to work, its subjects must be totally compliant, or else. however, change is inevitable, and to act on emotion is a natural expression of courage.

our star, Rich Angel, is just the person to challenge the status quo for the sake of his own happiness. he firmly believes that we may all benefit in the long -run if we just take a stand today for what we truly value - freedom. as the saying goes, 'We are in the system because we are not free.'. Angel is a prototypical agent of disruption; he is someone who is willing to 'walk the talk'.

documented is real footage of the everyday life of a so -called 'Freestater': a person who has renounced a majority of their constitutional rights to explore what it means to live supra -legally. we watch through the lens of link starbureiy's camera as our Freestater comes to grips with a well -established system that does not reward radical thinking in the context of socialism.

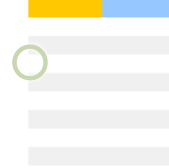

Sovereign Solutions

during the first decade of the Twentieth Century, Rich Angel produced a program for public (access) television (namely, *Missoula Community Access Television* (MCAT)) titled "Sovereign Solutions". the show was based on direct interview accounts with people who had solutions on ways and methods that could be used to circumvent the American government, all the while being *constitutionally* free in the United States. while Rich wouldn't classify himself as a 'hippie', he openly admits that his lifestyle is on par with counterculture. Angel was afforded the opportunity to speak with dozens of individuals from across the country, and would later compile this information into a knowledge base that was made available on video and distributed at a low cost.

I was also a producer at MCAT back then, and befriended Rich sometime in the Summer of 2005. at that point in my life, I was interested in learning more about vagabondage, and found Missoula's hippie community intriguing (though I did not participate in some of the more "unethical" activities of the participants).

this documentary is both an organic extension of our friendship and my own curiosity.
